Meet CHRIS DURRAH Technology Department Head

I started here at the Westbury Library in 2016 and have a background in Customer Service. I've attended Nassau Community College for Computer Repair Technology and Information Technology. After being asked to lead the Technology Department, I started working on projects to make library technology more accessible for patrons including the self-pay system.

My ultimate goal as the Technology Department Head here is to expand the Technology Department to be better able to handle the growing needs of the community. Eventually, my hope is that all library patrons will be able to understand and access the technology that they need to manage their day to day lives.
